

Kingdom Network of Worcester

Our purpose today is two-fold:

1. We want to look for the places where God has placed His people and record where they are and who they are – church buildings, storefront churches, house churches, Christian ministries.
2. We want to pray for these churches and ministries asking God to bless them and to increase their kingdom fruitfulness. And we want to pray that God will pour out His Spirit to do even more in the city of Worcester to His glory.

What kind of information do we want to record?

Anything you can find quickly. The goal is not to stop people and have long conversations. The goal is to gather information so that we can put together a spiritual “map” of Worcester. (At a later date we plan to visit each of these places, begin building relationships with them, and invite them to partnership with us in blessing and reaching out to the city.)
